

Week-8

Aim: To create a page which shows IST date and time using JSP and host it on Tomcat Server

```
<%@ page import = "java.io.*,java.util.*, javax.servlet.*" %>

<html>

<head>

<title>Current Date & Time</title>

</head>

<body>

<center>

<h1>Display Current Date & Time</h1>

</center>

<%

Date date = new Date();

out.print( "<h2 align = \"center\">" +date.toString()+"</h2>");

%>

</body>

</html>
```

Output:
