```
Week -1
```

```
Aim: Create the web pages using HTML5
Code:
<!DOCTYPE.html>
<html>
<head>
<title> Login page</title>
         <link rel="stylesheet" type="text/css" href="style.css">
<body>
<div class="loginbox">
    <img src="avatar.png" class="avatar">
    <h1>Login Here</h1>
        Username
        <input type="text" name=""placeholder="Enter username">
        Password
                <input type="password" name="" placeholder="Enter the password">
        <input type="submit" name="" value="Login"><br>
        <a href="#">Lost your password</a><br
    </div>
</head>
</body>
</html>
```
